Dear Sirs

Proposed new M4 Relief Road and Exhibition

Thank you for putting on your exhibition in Caerleon Town Hall and for explaining the scheme and answering all our questions.

We were extremely impressed with the aerial video travelling along the route which was so realistic showing the finished landscape.

The scheme has no direct impact on where we live, but we know that something has to be done to relief the existing sub-standard motorway through Newport.

We feel that many accidents and lives will be saved by the new road and that it will be very good for business and will bring more jobs and prosperity to South Wales and even more if the Severn Tolls were abolished, as wasting time and fuel by queuing for up to half an hour at peak periods is reason enough to put off new businesses from developing in Wales.

A lot of time and fuel will also be saved by commuters with Junction 25 & 26 re-opening. This will make life for us and the people of Caerleon and surrounding areas much easier as well as relieving the traffic routes currently diverted to and from junction 26.

We therefore support and hope that the scheme will go ahead.

Yours faithfully

Mr P.R. Williams

Mrs T. Williams

Mr E.T. Williams

Mr A.B. Williams
