Dear Sir/Madam

M4 CORRIDOR AROUND NEWPORT

I recently attended the Public Exhibitions in Magor concerning the M4 Corridor Around Newport Project. I am in favour of the scheme progressing through to Construction as anyone who travels through the Brynglas tunnels on a daily basis East or West bound knows something major has to be done.

Half measures will not be good enough and I believe that the current design will relieve congestion and benefit Wales as a whole moving forward.

I am going to be very close to the new alignment of the motorway but despite that I am still in favour of the scheme as I see the benefit for Magor and the surrounding areas once this scheme is built.

Yours Sincerely,

James Dennehy
