Dear Sir

M4 Relief road around Newport

I whole heartedly support the new M4 in its current form. It is needed to improve the road system and to provide a much needed motorway around Newport and for the transport route through South Wales.

It will reduce travel times, provide a boost for industry both in the short term in providing construction jobs and all the associated disciplines needed to make the project happen and be success, as well as the longer term ongoing benefits to reduce transport times. It will be of immense benefit to people living in and around Newport, as well as improving access times and reliability of travel to and from Cardiff for both short and long journeys.

The M4 is such a key road that when there are any accidents or incidents it cause s gridlock to the whole area of South Wales as there are no real alternative routes that have the capacity to cope.

You have my full support in the delivery of this much needed road.

Yours faithfully

Kathryn Sanders
