Subject: RE: Email of Support for the New M4 Corridor

Categories: Purple Category

Dear Sir / Madam,

Following the attendance of one of your recent public consultations, I am writing to you to confirm my support for the proposed new M4 Corridor around Newport.

As a business owner travelling regularly to from Cardiff to Bristol, London, etc, the existing infrastructure is insufficient for the current demand which leads to significant delays.

The delays often result in a monetary impact on our and local businesses, and as such the improvements to the M4 corridor need to be addressed at the earliest opportunity to ensure businesses within Wales are not at a disadvantage within the UK market,

Kind Regards

Robert Chichester
