

Dear Sir/Madam,

I am writing to express my support for the proposed M4 relief road around Newport - I regularly use this route both for commuting in the week when I occasionally work in Bristol and also at weekends when visiting friends over the Severn Bridge. A solution is desperately needed for the congestion (which appears to be getting worse) around the Brynglas tunnels which backs up to J23 / J28 and I feel the only realistic scheme presented is the new section to the south of Newport.

Yours faithfully,

Ian Jones (local resident)
