

To whom this may concern,

I would like to give my full support to the current Welsh Government proposed route for the M4 Corridor and around Newport. I currently work in South Wales and this scheme would take a lot of congestion off the M4 traffic delays.

I also spend a lot of time in South Wales for weekend away and always head to the coast. I think this would improve the Newport Area dramatically and would encourage more people to visit the area which is good for Wales.

Regards

Kate Smaza
