Dear Sir

M4 Corridor around Newport

I am writing in regard to the proposal for the new M4 Corridor around Newport to express my total support for the Welsh Government's proposals as published for the new motorway.

The delays that occur on the current M4 north of Newport between Junctions 24 and 28 are excessive. The queues cause massive disruption to the working day, cost businesses in South Wales millions of pounds and create a significant safety risk in terms of the accidents that the queues can cause. I drive this route every day on my commute from Bristol to Cardiff.

This scheme is long overdue and in my view will be massively beneficial to business in South Wales. It will also encourage new businesses to locate in South Wales if they know they will have good access to the West of England and beyond.

I sincerely hope that the scheme will progress successfully through the remaining Statutory Process in order that the benefits this project will bring can be realised as soon as possible.

Yours faithfully

Garry Slater
