### **M4 Corridor Around Newport**

I am writing in response to the recent publication of draft Orders and exhibitions on the M4 Corridor Around Newport.

I fully support the proposals and hope that the scheme continues to progress to completion as swiftly as possible.

The current M4 around the north of Newport and through the Brynglas tunnels was never intended as a motorway and the gradients and curvature cause regular delay and disruption that I feel impacts on the economic development of the whole of South Wales.

Regards

Gavin Harris
