

Good afternoon

I am writing to express my strong support for the new M4 route around Newport. I believe this will be a project that will significantly benefit the whole of South Wales.

I have been delayed countless times on the section of the M4 around the Bryn Glas tunnels, and I know many others who are also regularly delayed on this specific section. A number of times I have been stuck in traffic jams for a substantial length of time with my two young children in the car, including when the weather has been hot which has been a particularly unpleasant experience.

I hope that common sense will prevail and that construction of this vital infrastructure will begin without further delay

Kind regards
