Dem Sir/Madam,

Having once again recently experienced journey delays on the M4 near the Cardiff tunnels bottleneck I write to ask that you proceed as quickly as possible to progress the construction of the proposed new route to avoid such delays.

The costs of traffic delays must be considerable to all the many users of this important motorway + so must inhibit the future economic development of South + West Wales (business + tourism).

So please show us some progress in this matter — we have waited long enough surely?!

Many of us who live in West Wales are becoming fed up with seeing little happening in this matter — a progress report would be good PR for the Welsh Government.

So come on, get on with it please.

Yours

Order Branch,
Transport Department for Economy &
Science
