Dear Sir / Madam,

Proposed M4 around Newport

I write this letter to you to give my full support for the proposed new M4 around Newport, as published by the Welsh Government.

I personally believe this scheme is long overdue, the current traffic delays experienced between the second severn crossing and Tredegar Park are unbearable at times and it must have a negative effect on businesses and tourism.

I and many others eagerly await the completion of this scheme so all can benefit with reduced travel times and congestion.

Yours faithfully

Nigel Hancock.
