2nd May 2016

Dear Sir

M4 Corridor around Newport.

I refer to the above and the public exhibition which took place in March 2016 and wish to SUPPORT the proposal for a new section of 6-line motorway south of Newport as shown at the exhibition. The current M4 is over capacity and the delays caused adversely affect businesses and the economy of the South Wales corridor.

I would also like to SUPPORT the re-opening of the Caerleon Road intersection of the current M4 at Junction 25A to allow the free movement of traffic on all arms of that intersection and the reclassification of the existing M4 around Newport.

Yours sincerely,

S C Phillips
