Dear Sirs

M4 Corridor around Newport.

I attended the public exhibition which took place in March 2016 . I support the proposal for a new section of motorway south of Newport as shown at the exhibition.

The current M4 is inefficient with constant delays at peak times impacting adversely the economy of the South Wales.

I also support the re-opening of the Caerleon Road intersection of the current M4 at Junction 25A.t.

Yours sincerely,

M4 Corridor Consultation
