Dear Sirs

M4 Corridor around Newport

I welcome the opportunity to write on behalf of Johnsey Estates UK Limited in support of the Welsh Government's proposals as published which identifies the Black Route as the preferred option. A solution is clearly needed with deserving urgency.

We have a significant and growing number of businesses located at our Mamhilad Park headquarters where the ability to access improved and appropriate road transport links is of real importance. We believe that the Black Route proposal will address those needs most effectively.

Yours faithfully

James Crawford
Chief Executive Officer
