

Dear Sir,

I wish to register my support for the current proposal for the M4 Relief Road around Newport - otherwise known as the 'Black Route'.

I live in Northern Ireland but commute through south Wales, on business, on a weekly basis and to say that the current situation near and around the Brynglas Tunnels is affecting not only my business but business in general would be an understatement.

I fully support the Welsh Government's proposal for the Black Route and hopefully construction will commence as soon as possible after the elections so that further investments in jobs and industry can be planned. In my opinion it is for the good of the travelling public and for the business community who are providing work and inputting finance into the Welsh economy.

Yours sincerely

Anthony Lewis
