**Attachments:** Swanbourne Station Yard.jpg

i Richard S White of Swanbourne Station Yard would like to make an objection to EWR proposal to compulsory purchase part of my land adjoining their property. The part of my land that they want is mainly the old station yard which will make the rest of the property useless. This is mainly a commercial property even though it is not at this moment being used for that purpose but has been in the last 5 years and i will potentially loose per annum in lost rent if it was used as such. At this moment in time i live here and use it as my personal wild life park as it is a bit overgrown. This property of 2.3 acres consists of an acre of Yard with an unlimited weight limit, a small garden, a paddock, a small amount of woodland, a small part where i live and a small reed bed. EWR proposal will be to use the yard as an access point during the build and then to turn it into scrub and grass land afterwards. included is a map of my property which show EWR proposed works.

regards

Richard S White

Swanbourne Station Yard
