**Subject:** Proposed Network Rail (East West Rail Bicester to Bedford Improvements) Order

TO WHO IT MAY CONCERN

I am Susan Ellis and I live at

I have an interest in the proposed applications to temporarily use land and to acquire land and rights to land compulsorily to use land and to extinguish rights over land.

I have lived a \_\_\_\_\_ years and during the whole of that time I have had full vehicle access to the rear of my property. It runs along the Public Right of Way \_\_\_\_\_ to the back of my property. This access has been essential when having work carried out on the many trees in my garden and have needed the services of Tree Surgeons and gardeners. Also for carrying out essential maintenance on the rear of my property.

Also I have a substantial Garden Pond that is the perfect habitat for a huge population of Great-Crested Newts. As you must be aware Great-Crested Newts are an Endangered Species and as such are afforded special protection. My Pond is of such significant interest and importance that every year a specialist team carry out a monitoring programme with many visits to the pond. In order to do this they need rear vehicular access to my garden.

Therefore I wish to place on record my claim that there should continue to be full access for vehicles along the Public Right of Way that runs at the rear of my property.
