Dear Sir,

It is with a mixture of dismay, anger and upset that I write to you regarding the above development.

This development is premised on fantastical delusional thinking on so many levels. It is a clear sign of the disconnect of the council with the needs of the population, it is flawed in the assumptions of the need for such a development and it is mistaken in the manner in which the funding has been worked out.

It is was not for the long term damage that such a development will cause to the Tunbridge Wells community I would not be so incensed by the legacy that allowing such a development to go ahead will bring,

Larry Mayers
